Re: Thickener Removal, Savage Coal Industries, Savage Coal Terminal, ACT/007/022-AM00C, Outgoing File

Dear Mr. Jensen:

The Division has completed our review of your proposed plan to remove the preparation plant thickener unit at the Savage Coal Terminal. Since the removal of the Thickener and the burial of concrete is already contemplated in your approved reclamation plan there is no need to revise the text of the plan. However, the map (Facility Map 3-2) provided in the amendment will need to be corrected to reflect the actual rather than proposed conditions of the site. Also, since the portable truck dump amendment has been approved, this should also be reflected on the revised map. This amendment (Thicker Removal) is hereby conditionally approved pending receipt of 3 copies of the required maps. Please provide them by no later than April 7, 2000.

Please call if you have any questions.

Sincerely,

Daron R. Haddock
Permit Supervisor
